THE WINTER SKY

Once upon a time there was a cat Garfield with a dog, who was very naughty. One day a man came by and took them to a near town. There he ordered Garfield to wait for him in the playground where he could enjoy himself by jumping on a trampoline. Then a man left for a church. Garfield was jumping and jumping finally so high that he was launched into the space where at night you can still see him on the sky.

A DOE AND A STAG

A doe and a stag were grazing grass when a boy came and shot a stag, who left for stars. A doe ran away into forest, a bird appeared from somewhere and attacked a boy. A boy threw a bird far away into sky.
